MORE ABOUT Big Gap
Whitmer, Moerlien, Parmley, Daves and Boker. Parmley then moved to put the police tax bill on first reading. That motion was defeated 11-5. Voting "no" were Nann, Rutledge, Whitmer, Basarich, Boyd, Robertson, Poulos, Green, Daves, Morien and Schuler. Parmley then introduced the second of the three ordinances, a bill that would have increased the city's sewer maintenance tax from its present two cents to 10 cents per \$100 assessed valuation. Adoption required a two-thirds majority approval.

Severs a Problem
Before that issue went to a vote, Alderman Daves warned the council that "we're going to have to replace all of the Lynch avenue sewer and this \$828,000 we have set up in the levy isn't going to touch our problem. Right now the sewers are cracking and sinking on Felling road." "It's not just one area. It's the whole city that's going to have to pay for a new sewer system. But we are going to do something about it. We have to have the nerve to vote what is right."

The motion to suspend the rules for the sewer tax bill lost 10-6 with "no" votes cast by Nann, Rutledge, Whitmer, Basarich, Robertson, Poulos, Green, Morien, Schuler and Boker. At this point, Parmley threw the third ordinance on the table. "There's no use reading this one, but I'll move for suspension of rules for final passage," he said. That bill provided for increasing the city's present fire protection tax rate from 10 cents to 15 cents.

Robertson ruled, however, that the ordinance must be read before the council could vote on it. "If you want it read, then you read it," Parmley said, taking the ordinance over to the mayor's desk.

Pauls Presents Bill
Alderman Poulos rose and said: "Wait a minute. There's three members on the ordinance committee. If you (Parmley) don't want to read it, then I'll read it." Parmley took the bill to Poulos, who read the measure. The vote was 13-3 against approval. Voting "no" were Nann, Rutledge, Whitmer, Basarich, Boyd, Moerlien, Robertson, Poulos, Green, Daves, Morien, Schuler and Boker. No attempt was made to place it on first reading for later consideration. The tax levy bill as originally drawn called for total tax levies of \$3,422,860, but this figure included a \$106,822 levy that would have been provided by the special five-cent police tax.

Since this tax bill had been knocked out, City Attorney Leon Scroggins revised the tax levy ordinance by moving the portion of the defeated police levy into the general fund. This increased the general fund portion of the levy for police purposes from its original \$306,679 to a new total of \$467,502.

Seeks Final Passage
In introducing the tax levy bill, Alderman Parmley also moved for suspension of rules so that the measure could be advanced to final passage stage and adopted in Monday night's meeting.

At this point, Alderman Moerlien called attention to the fact that the levy included an item

Midwest to Resurface Pontoon Beach Roads

Midwest Blacktop Road, Inc., was awarded a \$5841 road materials contract by the Pontoon Beach village board at a special meeting Tuesday night. The Collinsville firm submitted the only proposal in answer to a bid-letting notice issued by village authorities Aug. 7. Bids were opened Tuesday morning.

The arterial road maintenance program for which the resurfacing materials are required will be financed with state motor fuel tax funds allocated to the village. Jerry Taylor, an Illinois Department of Highway engineer, was present at the bid opening.

Midwest's bid listed 8440 gallons of liquid asphalt at 17.5¢ per gallon, \$485, and 352 tons of rock chips with rolling, \$5.84 per ton, \$2055.

In other action at the special meeting Tuesday, village officials authorized additional expenditures totaling \$1710 for repair work on village roads damaged during recent high water.

Two new patrolmen, John Nolan and Clifton Towery, were added to the volunteer police force, bringing the department's roster to 15 men.

Edward Jeff was named village police chief replacing Merle Hensley, who has held the post for the past 12 months. Jeff and Hensley rotate at the top position. Each is appointed to the job for a year and remains a police captain during the alternate year.

Some Delay in Venice School Tax Rate Election Planned

Financial problems still face the Venice school district, but immediate action was taken temporarily this week with receipt of \$300,000, representing the first distribution of new tax funds to the district.

Board members learned at their monthly meeting Monday night that a possible referendum to seek a 40-cent tax levy increase from district voters can be postponed until late this fall.

Initially, it was believed the proposed tax raise might be submitted for voter approval prior to Sept. 23 in order to achieve collection of taxes next spring and summer.

Venice Supt. John O. Pier said Monday the district may hold a tax referendum, changing the tax rate levy, up to Dec. 31, with the new rate, if approved by voters applicable to next year's collection.

It was agreed to delay an immediate referendum, changing the timing discussed last month.

Retire Tax Warrants

Retirement of \$100,000 in tax anticipation warrants, issued by the school district in June through the First National Bank in Madison, was authorized. The amount represents the first tax anticipation money borrowed by the Venice district in more than three decades.

The second payment of collected taxes is expected by mid-September, Pier said.

Breakdown of the \$350,000 showed \$251,106 for education, \$53,270 building, \$23,275 bonds and interest, \$7830 retirement fund, \$4515 working cash fund, \$3388 transportation and \$1540, junior college fund.

An additional \$104 premium payment to the district's liability insurance coverage was authorized for the Venice-Lincoln Technical Center, bringing the total liability premiums for all Venice school buildings to \$450. The insurance policy is issued through the McManaway Agency of Madison.

Supt. Pier advised the board that claims for May, June and July submitted to the state for expenditures at the Technical Center still remain unpaid, although reimbursement is expected this week.

Four to Attend College

Four Venice young people were authorized to attend Belleville Junior College during the 1968-70 school year, with their tuition "paid by the Venice school district.

The students are Wilfred E. Taylor, 100 Booker street; Karen Sue Devany, 525 Jefferson avenue; Edward Charles Johnson, 1302 Oriole street (second year); and Joseph J. Ponce, 1221 Oriole street.

A contract amounting to \$975 was awarded to Lombardi Paints and Interiors, Granite City, for purchase of blackout draperies for nine Venice classrooms where visual aids are utilized.

Also authorized was purchase of two electric long-carriage typewriters from the IBM Co. at \$448 each. They will replace

93.09% GC Tax Collection In '69

Granite City taxpayers have paid his office a total of \$5,537,063 this summer for 1969 taxes, City Treasurer E. R. "Pat" Rich announced today.

The payments during an eight-week local collection period represent collection of 93.09% of the total billings of \$5,797,870 with which Granite City taxpayers were charged this year for operation of schools, the city, county, parks, township and levee district.

This means, Rich said, that taxpayers paid his office \$1,505,159 more in 1968 taxes this year than they did a year ago, when he collected a total of \$7,031,904 in taxes due for the 1967 tax year.

The higher collection was due to the all time record-high tax bill assessed against Granite Cityans for the 1968 tax year, \$1,632,613 higher than the previous total of \$7,538,257.

Many Pay by Mail

Rich ended the local collection last Friday, but tabulation of payments, which included hundreds sent in by mail during the last few days of the collection period, was not completed until yesterday.

Personal property tax payments amounted to \$3,484,855, compared to \$3,069,250 last year, while real estate taxes paid amounted to \$4,638,177, compared to \$3,963,654 paid last year, Rich said.

Rich said about a week will be required to balance the tax books. They will then be turned over to County Treasurer John Maeras.

Services in South for Spec. Harry Garrigus

Military funeral services will be held at 2 p.m. Friday, Aug. 22, at the St. Elizabeth Hospital, 2430r Madison avenue, in Memphis, Tenn., for Army Specialist-four Harry Garrigus, 19, who was killed while in action against hostile forces in Vietnam Aug. 8, two days before his only child was born at St. Elizabeth Hospital.

The services will take place at 2 p.m. at Oak Hill Methodist Church, Hyndesville, with burial in the church cemetery.

The serviceman's wife, Mrs. Beverly Garrigus, 2430r Madison avenue, was confined at the local hospital when word was received by military authorities of his death. She was not informed until Aug. 15, when relatives arrived here to break the news to her.

The infant, nine pound, 11 ounce boy, has been named James Robert Garrigus.

He and his wife, the former Miss Beverly Pauline Elkins of Dresden, Tenn., had made their residence in Granite City for 18 months, but he joined the Army in February 1968.

He was assigned to the 11th Infantry Division in Vietnam last March 10. A combat infantryman, he held sharpshooter and expert medals with the M-16 rifle and similar weapons.

He was born in Martin, Tenn., and attended schools in that area. Before entering the service, he was employed by the King Comfort Co., in Dresden.

Beside his wife and infant son, the serviceman is survived by his parents, Mr. and Mrs. Hershel Garrigus of Martin, Tenn.; two sisters, Mrs. Dottie Crocker and Mrs. Geneva Leggett, both of Martin; four brothers, Harold, Harvey, Bobby and Dickie Garrigus, all of Martin; his grandparents, Mr. and Mrs. C. M. Garrigus of Martin; and many nephews and nieces.

Pleads Not Guilty, Requests Jury Trial

Raymond D. Roberts, 42, of 4044 Gaslight Walk, pleaded innocent Monday afternoon before Magistrate William Johnson to five charges stemming from firing a gun Friday evening at the Gaslight apartments.

He demanded a jury trial, expected to be set for October in Edwardsville, and was being held at the Madison county jail in lieu of bond.

He was charged with unlawful use of a weapon, disorderly conduct, no firearm identification card, discharging firearms and battery following his arrest by Pontoon Beach police.

Authorities said Roberts and neighbors were arguing over a loud stereo, and Roberts allegedly brandished a .38-caliber snubnose revolver which went off, striking the porch of an adjacent apartment near where the others were standing.

Roberts has served a long prison term on a murder conviction in connection with the fatal beating of John C. Peach, 26, Granite City railroad clerk, in November, 1950.

Drives Wrong Way

Junior R. Davis, Jerseyville, was ticketed at 10:15 a.m. Tuesday on a charge of driving the wrong way on a one-way street at Niedringhaus and Grand avenues.

Funeral arrangements are given in the obituary column.

president, said the board's contract committee, which includes himself, Harold T. Fisk and John Belloc, was in almost constant contact with the union, the Madison Classroom Teachers Association headed by James L. Loy, and some individual teachers since a discussion by parents and teachers with the board last Thursday night.

McManaway said, "It was the overall objective of the two organizations and all of the teachers to open the schools on time."

With this in mind, it was merely a matter of getting together to work out a solution, with everyone cooperating in ironing out the details. A lot of time was spent during the past week."

Avoid Ordeal With the agreement, the district is spared the ordeal it faced last year when union teachers went on strike for six weeks, forcing a long delay in opening of the schools and an extension of the school year into the summer.

Fifty-eight teachers, more than half of the faculty, are at the top of the salary schedule. The increases will cost the district \$102,000, while increments will cost another \$27,000 and employment of new teachers will cost an added \$32,000. The money is to come from additional state aid approved by the state legislature this year.

Midwestern Soccer Camp at University

Twenty-five junior high school soccer players from eight midwestern states will attend a midwest soccer camp at SIU-SW Aug. 24-30.

Robert Guelker, head soccer coach, will direct the camp. It is being co-sponsored by the U. S. Soccer Football Association and U. S. Olympic Development Committee.

Guelker, director of the camp for the past three years, has invited players from Illinois, Louisiana, Michigan, Minnesota, Missouri, Ohio, Texas and Wisconsin. Coaching assistants will be Pat McBride, captain of the professional St. Louis Stars soccer team, and Joe Carenza, executive secretary of the St. Louis Catholic Youth Council.

Harold Hassall, former First Division player from England and registered coach also will be here Aug. 25 to take part in the workshop.

Hassall, presently on a cross-country tour, will come to SIU-SW under auspices of the Federal International Football Association (F.I.F.A.), world governing body of soccer, and the USSFA.

Optional 2-Point Play After High School TDs

Official football rules interpreters appointed by the Illinois High School Association have met in Chicago for high school rules instruction. Instruction on the 1969 National Alliance Football Rules was given by L. L. Astroth, IHSA assistant executive secretary and member of the National Alliance Rules Committee.

Purpose is to secure uniformity in interpretation and application of the 1969 high school football rules in downstate, suburban and Chicago areas. Coaches and referees are to be briefed at 7:30 p.m. Thursday, Aug. 28, at Belleville East high school.

There are a number of revisions authorized for the 1969 high school code. The most important of these, IHSA Executive Secretary Harry Fitzhugh reports, are:

(1) A punt may be used as the free-kick following a safety.

(2) A foul immediately preceding a snap or free-kick shall cause the ball to remain dead.

(3) During a try-point, the ball will be put in play by scrimmage from the three-yard line. A successful try will score two points for a run or pass or one point for a field goal or safety.

(4) It is unsportsmanlike conduct for a player to intentionally kick or throw the ball from the playing field following a score.

(5) Participation by a replaced player or substitute constitutes illegal participation. Football rules interpretation meetings at which the 1969 rules will be thoroughly discussed are to be held at 21 centers throughout the state beginning Aug. 25 and ending Sept. 9.

The meetings are conducted by the Illinois High School Association as a service to member officials and high school football coaches. At all of the meetings, an official rules interpreter, appointed and trained by the IHSA, will have charge of the discussion.

Interpreters appointed for 1969 are Astroth, Chicago; Ernest Driggers, Mt. Vernon; Norman Caskie, Wheeling; Charles Hillman, Hinkley; and Ray Wolf, Peoria. Astroth will speak at Belleville East.

International Tennis

Matches Aug. 21-23

St. Louis will be the scene of the first international tennis matches to be played in the U. S. for the Leon Dubler Cup for senior amateurs. A team from Sweden will meet the U. S. entry Aug. 21, 22 and 23 at Triple "A" club courts in Forest Park.

The Dubler Cup represents international supremacy in senior tennis, and is known as the "Senior Davis Cup." Created in 1958 by Leon Dubler, a Swiss industrialist and active tennis enthusiast, the cup has been won by Italy, Sweden, Switzerland and France.

In 1968, the U. S. entered play for the first time, competing with 13 European nations, Israel, Canada, and Mexico. In the playoffs, the U. S. defeated West Germany and best Sweden in the finals. In the challenge round, the U. S. defeated France in Paris, bringing the cup to the U. S. for the first time.

Southwest Stock Cars To Begin Racing Here

Southwestern Stock Car Association members have voted to move all operations to the Tri-City Speedway from Highland, Ill., and race semi-elite-model stock cars here every Saturday night beginning Sept. 6.

SWC President Wayne Holman told the Press-Record "The Tri-City area needs good racing and we can supply it. I believe we can draw good crowds."

"We have no internal problems; nearly all our car owners and drivers are from this region and run the association by vote. I just carry out what they want."

"They're a tightly-knit group and all they want to do is race."

The Highland high school stadium has been the summer home of SWSCA for seven years. In previous years, when school was in session, no race track was available.

With the departure of the Midwestern Racing Association last week, Tri-City Speedway became available.

Prospects for SWSCA to provide interesting racing are regarded as excellent.

Even if crowd sizes do not increase, SWSCA would be able to encourage its drivers with larger purses than the MRA was able to offer its stock car drivers; the MRA included a super-modified auto division which received a majority of the purse.

Cadillacs
NEW OR PRE-OWNED

Join the legend of loyal owners who know that Cadillac's economical operation and low maintenance cost compare with those of many popular economy cars. And discover how Cadillac's high resale value returns much of your investment at trade-in time.

reasons why
Maverick is the fastest-selling
new car in automotive history!

Our little car is making a big hit. In its first 100 days Maverick has outsold every new car ever introduced. And every day more and more smart drivers are discovering the fun of owning the simple machine. Take a few minutes to find out why Maverick's so popular. Then take a test drive at your Ford Dealer's.

New Ford Maverick... the simple machine

- 1. LOW PRICE.** Maverick is the best seller of the 700s at 1960 prices. And you get your money's worth. A complete car all ready to drive home.
- 2. LOW FUEL BILLS.** In tests by professional drivers at our tracks, where we do our best to duplicate actual driving conditions, Maverick averaged 22.5 mpg. (Some Maverick owners report they get 25 mpg and better.)
- 3. 105 HORSES.** Maverick's high-spirited Six gives you nearly twice as much horsepower as the leading economy engine. You get fast acceleration, easy passing.
- 4. PEOPLE-SIZED INTERIOR.** Maverick pinches pennies, not people. Its front seat gives you nine inches more shoulder room than the leading import. Plus lots of leg room, hip room and head room.
- 5. EASY HANDLING.** Maverick can outmaneuver the leading economy import. It can U-turn in a tighter circle, rip around corners and slide into tight parking spaces with amazing agility.
- 6. FEWER SERVICE CALLS.** Maverick is actually easier and less expensive to maintain than an economy import. Maverick oil changes come only once every 6,000 miles and chassis lubrications once in 30,000 miles. The leading import recommends an oil change twice as often and a chassis lubrication six times as often. (Maverick gives you economy without inconvenience!)
- 7. SIMPLE SERVICE AND REPAIRS.** The Maverick Owner's Manual has 24 pages of instructions for routine maintenance jobs you can do yourself, if you wish. You can change spark plugs, replace fuel filter, adjust ignition timing, and more. Even a smashed grille can be replaced in as little as 13 minutes.
- 8. WIDE-OPEN TRUCK SPACE.** No more cramming in luggage just because you have a small car. Maverick gives you 10.4 cubic feet of luggage space—nearly twice as much as the leading import. (With Maverick, you can take it with you.)
- 9. SOLID DURABILITY.** Maverick's unitized body construction makes it light, strong and durable. (And Maverick's 3-speed transmission is tough enough to handle twice as much horsepower as the engine it's built to take.)
- 10. BUILT-IN SAFETY.** Unlike most economy cars, Maverick's tread is wider than the car is high. That means stability—mighty important when the road is wet or the wind is strong.

First Place Beckons To Mercer Ball Team

Mercer (10-7) will travel to league-leading Collinsville (11-6) for a possible opportunity to tie for first place at 2:30 p.m. Sunday.

Second-place Pocahontas (10-6) could override Mercer's first place plans, contingent upon a 1 p.m. Sunday doubleheader at Maryville (5-1).

Granite City Steel Credit Union will host an Inter-City League doubleheader at Wilson Park at 1 p.m. Sunday, meeting the East Alton Machinists (7-7), also still nursing pennant hopes.

Last Sunday, Mercer tamed East Alton 3-2 with Larry Coe's two-run eighth frame homer and the able mound work of Don Rains, carrying a 2-0 ERA for third best in the league.

Rains will face the triple punch Collinsville lineup of Charles Hasenstab .362, Steve Helmskamp .361 and Jesse Young .338, who are 3rd, 4th and 5th in the batting race.

The likely Collinsville hurler, Bruce Thompson (ERA 1.89), must toss to the strongest crowd, Harold Tankley, .442 and Bob Ketter .327, sixth. Credit Union was a 3-1 winner over Pocahontas; East Alton will bring a current two-loss record.

Warrior Conditioning Begins for '69 Season

During the hard-working first GCHS varsity football practice yesterday, new head coach Wayne Williams almost resembled the warden in the movie, "Cool Hand Luke."

He wore metal rimmed glasses, spoke terse, demanding instructions and never shrieked the quadrilateral words overused by many coaches.

But it seems unlikely the name "Warden" Williams will stick. For the new coach, after announcing to players his recognition that they may have heard the same before, explained "Why" exhausting and seemingly frivolous conditioning procedures are necessary.

Tom's Wins Division
Tom's Left Overs defeated Friederich's Heat & Air 103 for the Western division softball title at Worthen Park Wednesday. Tom's 13-5 hitting edge was decisive. Vince Hamer, home.

Williams' impression of the team's physical condition was, "After only one practice, when they're wearing shorts and not pads, it's difficult to judge."

"They did okay to the extent that no one hyperventilated and passed out."

The team was coached by Williams, athletic director Joe Fedora, Gordon Galbreath and Donald Miller, new defensive backfield coach, who is from Belleville East.

Miller, after the first session, answered, "A good backfield? No reason why not. There's a good selection of big players with fair speed."

meet the directive of the state board on an emergency basis, and then we later receive money for the same purpose from the federal government, that federal money should go toward repayment of the bonds.

"I will not be a party to any plan to spend twice the amount of money we need," Ebersoldt said.

Ebersoldt said he had contacted Col. Donovan Vance, director of the Illinois Department of Civil Defense, with whom all disaster claims are to be cleared.

He asked if issuance of bonds to secure funds for the repairs would nullify the district's claims for federal aid. He said he was told by Vance that it would not.

The three sewer breaks, repair of which has been ordered by the water board, include two in sanitary sewer interceptors in the Cahokia area of St. Clair county and a break in the 84-inch Madison stormwater trunkline near the Madison pumping station.

Repair of the two St. Clair county breaks has been tentatively estimated at about \$400,000, while repair of the Madison outlet has been estimated at \$220,000.

Engineers say the cost could be greater, depending upon what they find when excavation is made to determine the extent of the breaks.

Democrats Invited to Sept. 9 Unity Rally

A Democratic "unity" picnic and rally hosted by State Treasurer Adlai Stevenson III is planned in Chicago Sept. 9, with Sen. Fred Harris of Oklahoma, chairman of the Democratic National Committee, and Sen. George McGovern of South Dakota as main speakers. McGovern heads a commission on party reform.

Sen. Edward Kennedy of Massachusetts, former vice-president Hubert Humphrey and Mayor Richard Daley of Chicago have been invited. Theme is "There's Room for Everybody."

**Swimming Season Ends
Sunday at Park Pool**
The Wilson Park pool will close at 9 p.m. Sunday, concluding the summer swimming season for Granite Cityans, who patronized it this year in slightly fewer numbers than last summer. Park Sup. Harold Brown reports.

Attendance recorded at the pool from the Memorial Day opening through yesterday was 33,792, compared to 34,033 in 1968. Cool and rainy weather probably accounted for the reduced number, Brown said.

Long Airport Study
A site location study for a major area airport will not be completed for another three to four months, according to J. E. Wenzel, director of the Illinois Department of Aeronautics. He said six or seven sites are being examined on both sides of the river.

New Meetings Set In Ironworker, Mason Strikes

Negotiators for the Southern Illinois Builders Association and Ironworkers Local 392 were to meet this afternoon to resume contract talks in the three-week stalemate over terms of a new working agreement.

An SIBA spokesman said meetings also are scheduled with officials of Cement Finishers Local 90 and Carpenters district "councils tomorrow and Saturday."

Progress was reported in talks with the ironworkers late last week, and the union and contractors are "not too far apart" on new contract terms, the spokesman said.

The carpenters' meeting appeared to agree in rejection of the latest SIBA offer of \$2.40 per hour spread over a three-year contract. Both Belleville Local 433 and East St. Louis Local 169 voted down acceptance of the offer this week. Carpenter officials have indicated they want the same wage level that eventually is given the ironworkers.

Ironworkers and cement masons are striking at jobs whose contractors are affiliated with the SIBA, but the carpenters have continued working on all jobs where there are no trade union pickets. The strike began Aug. 1 after expiration of the old contract.

Howlet to Speak
Michael Howlett, state auditor, will be featured speaker at the annual barbecue and picnic of the Collinsville Democratic Club Sunday at the Collinsville VFW grounds.

ROBERT SUMMERS
Summers Commander
Of 2-County Council

Robert Summers, a past commander of Tri-City Post 113 and past director of its Sons of the Legion, was installed as commander of the Madison and Bond Counties American Legion Council here last night.

Others installed included Kenneth Hinson, Venice-Madison Post 307, adjutant; and Alan Valentine, Venice, chaplain.

New officers for the Auxiliary include Miss Dorothy Hinson, Venice-Madison, vice-president.

After the installation, Auxiliary Unit 113 served supper to 90 visitors, followed by dancing. Entertainment was provided by Joe Kristi of Springfield, Ill., with a country band.

Ogilvie Signs Broadened Air Control Bill

A bill broadening the authority of the Illinois Air Pollution Control Board and one allocating \$5.4 million in state money for free lunches for undernourished school children were among measures signed into law this week by Governor Ronald W. Ogilvie.

The governor also approved legislation creating nine special commissions to study urban education, higher education, effects of technological progress, uses of land adjoining Lake Michigan and four Illinois statutes.

Ogilvie released \$250,000 to the Illinois Department of Conservation for repairs and maintenance involving public health and safety in state parks and marinas. He has tightened control over the Illinois state fair, resulting in a sharp upswing in state profits for the first time in many years.

The air pollution control bill, implementing the governor's recommendations for stepping up the fight against dirty air, also gives the board \$225,000 for the current fiscal year to carry out its broadened powers.

May Seek Injunctions
Principal new power permits the agency to seek immediately an injunction against the operation of an industry or other polluter when its emissions constitute a health hazard of an emergency nature to a city or neighborhood.

Ogilvie's approval of the allocation for school lunches marks the first time state money will supplement the federal lunch program.

A bill outlawing vigilante committees was signed yesterday. It repeals an archaic law passed in 1885 permitting formation of vigilante groups.

Another bill that became law with the governor's signature provides for a "strong mayor" form of government which may be adopted by referendum in cities of 500 or more population. It vests executive and administrative authority in the mayor and legislative authority in the city council.

**Autos Legally Parked
May Be Near Hazards**
Legally parked is not enough, warns the Institute for Safe Living. The question to answer is—are you parked safely?

A defensive driver never relies upon the correct and skillful action of others in safeguarding his own vehicle from damage. He has to be sure that he won't become involved as a part of someone else's error.

If your car was an egg—or your head was where your bumper is—it is quite probable that you'd quickly acquire a space-age concept as to where and how you parked your vehicle.

Which would be most important then, the fact that you were parked correctly within the yellow lines, in accordance with the letter of the law, or that you had enough space cushion around you to make the skillful action of adjacent vehicle drivers less important as a factor of your safety?

The action of a driver who parks his vehicle across the street from somebody's driveway, parks in back of docked vehicles or cars parked diagonally at a curb, just doesn't compute with concepts of defensive driving.

Neither do the actions of the driver who parks his vehicle on a grade, illegally, without using wheel blocks, setting his brakes or turning his wheels into the road edge downhill or away from the road edge uphill.

Lack of foresight and good judgment are also evident in the actions of the driver who legally parks his vehicle close to a street intersection, adjacent to construction equipment or a building under-going repair.

Defensive drivers continuously analyze their surroundings, recognize the development of potential hazards and always seek a safer alternative to the acceptance of a known risk.

Half of GI Insurance In State Not Converted

John B. Naser, manager of the Veterans Administration regional office in Chicago, reports that more than half of the 292,000 Illinois veterans who hold \$2,146,069,000 worth of government life insurance have not yet converted these policies from term to a permanent plan.

In 1968, Illinois veterans paid \$32,161,000 in premiums to keep both term and permanent government policies in force.

World war II and Korean war veterans hold most of the term policies. Mr. Naser said. Now at an average age of 49.7 years, world war II veterans in Illinois who have not converted their insurance will hold their National Service Life Insurance premiums going up as a result of advancing age.

Permanent insurance costs more to begin with, but the premium rates for permanent insurance never go up. Permanent policies also have loan cash-surrender, paid-up and extended insurance values, whereas term policies do not.

Veterans can obtain detailed information about the various government life insurance permanent plans from their nearest VA office.

Crash Victims on Mend At 4 Area Hospitals

Robert J. Schoeber, 24, of 2101 Garfield avenue, one of eight young Quad-Cityans injured in a one-car crash early Monday near Roxana, remains in fair condition today at Wood River Township Hospital, where he underwent surgery this week for pelvic injuries.

Also confined at the Wood River hospital is William Snowden, 25, of 2010 33rd street, Madison, driver of the auto which went out of control on curve near the south end of Roxana.

Roxana Police Chief Roscoe Duncan said the car hit railroad tracks in the southbound lane, flipped once in the air, hit the second set of tracks on its roof, flipped into the air again and came to rest on its side. The car was upside down along the road into a ditch. The group was believed heading home after visiting a Cottage Hills night club, the chief said.

Miss Susan Ponomarevich, 21, of 1111 Elizabeth street, Madison, is in satisfactory condition today at St. Luke's Hospital. She sustained a fracture of the left shoulder, rib and pelvis injuries, and lacerations.

Another passenger, Miss Cynthia Eads, Rural Route Two, also is satisfactory at St. Elizabeth Hospital, with head injuries and cuts and bruises.

Miss Jackie Odum, 19, of 3009 Marshall avenue, was transferred this week to St. Mary's Hospital, Clayton, from here. She suffered a fractured vertebrae and cuts and bruises to the head, left ankle and hand.

Gary Gubser, 24, of 1708 Lindell blvd., was released yesterday from the Wood River hospital. Robert Graham, 27, YMCA, was treated for a dislocated ankle and wrist cut and released the morning of the accident.

ther and Grigsby junior high schools will start at 8:30 a.m. All 600 junior high students will be dismissed at 12:30 p.m. Wednesday.

Granite City high school students will start at 8 a.m. Wednesday, concluding at 1 p.m. Regular school hours at the high school will be from 8 a.m. to 3:30 p.m.

Elementary pupils in Granite City, except those at Lake school, will attend classes under the regular attendance schedule—8:45 a.m. until 3 p.m., beginning Thursday, Aug. 28. Lake pupils will attend from 9 a.m. until 3:15 p.m.

Grigsby and Prather students will conclude regular classes at 3:45 p.m., while Central school pupils will finish at 3:30 p.m. and Coolidge at 3:15 p.m. during the regular school year.

Cafeteria facilities in the Granite City district will start operating Thursday, Aug. 28, with regular bus transportation schedules also in force.

Kindergarten and first graders attending Venice school for the first time may be registered Monday at the school, with parents asked to bring the child's birth certificate.

To be eligible to enter kindergarten, a child must attain his fifth birthday by Dec. 31, 1969. Youngsters enrolling in first grade must have reached their sixth birthday by the same date, Assistant Supt. Robert N. Vickers said.

Registration periods have been conducted by the Venice district prior to the start of the new school term.

Normal starting times will be observed in the Venice district for half-day classes Monday through Thursday. Kindergarten pupils will assemble at 8:45 a.m.; fourth, fifth and sixth grades at 8:30 a.m.; seventh and eighth grades, 8 a.m.; and high school (8th-12th), 8:10 a.m.

Dismissal times Monday for primary to eighth grades will range from 11:30 a.m. until 12:20 p.m. when high school classes will adjourn. Regular dismissal time for kindergarten through sixth grades is 3 p.m. Venice junior high students conclude classes at 3:15 p.m. and the senior high at 3:05 p.m. daily.

Venice teachers will meet at 1:15 p.m. Monday in the high school library for an orientation meeting, conducted by Supt. John O. Pier.

Madison Opening Plans
School will begin Monday, Aug. 25, for all pupils in the Madison community in school district, Supt. Raymond Dragich said this week.

Children who reach the age of five during 1969 may enroll in kindergarten and those reaching the age of six during this year may start the first grade.

Medical and birth certificates are required of youngsters entering kindergarten or first grade for the first time, and medical certificates only for those entering grades five or nine for the first time. Medical examination forms may be picked up at your nearest building or the Superintendent's office.

The first day of school on Aug. 25 will start at 8:30 a.m. After a noon luncheon, teachers will adjourn to their individual school buildings, where advisory sessions will take place from 1:15 to 3:30 p.m. Identification photographs will be taken during the afternoon hours.

ment workers are operating three pumps at one particular mammoth "but we can't keep up with the water."

The street superintendent said flatly that "we're about to lose the sewers in the Cloverview area. I'm laying it right in the sewer line because I don't want to be blamed when it happens."

"I'm telling you as plain as I can that if we don't replace this whole line, there isn't going to be any sewer."

The sewer line involved has three repaired breaks, two additional known breaks and two apparent breaks, Warfield said.

Two New Breaks
Kleberger told the council Monday night that "when we got the three breaks repaired, we thought we were in the clear. Then last week we had one at Maryville road and one at Spaulding and Vesel."

"The north side of the street is beginning to cave in and we Teachers are to assemble then at 1 p.m. Aug. 25 in the Venice high school auditorium for a short meeting.

Bus service will be furnished to those students who will be transported by a single vehicle to Coolidge during the regular school year, according to James Dumont, Coolidge principal.

Coolidge Orientation
An orientation meeting is scheduled at 9:30 a.m. tomorrow at Coolidge junior high school for incoming seventh grade pupils and for ninth graders entering the Granite City district for the first time.

The session will conclude at 11 a.m. Bus service will be furnished to those students who will be transported by a single vehicle to Coolidge during the regular school year, according to James Dumont, Coolidge principal.

Teachers' Sessions
New teachers in the Granite City school system will gather at 8:30 a.m. Monday in the senior high school cafeteria for a breakfast meeting and orientation program, under the supervision of Frank Kraus, assistant superintendent of schools.

On Tuesday, all faculty members in the local school district will meet for "Institute Day" at Granite City high school. The general meeting is to be called to order at 9 a.m. Tuesday by GCHS Principal Lawrence C. McCauley, followed with an address by Granite City School Supt. B. J. Davis.

Special guest speaker will be Harold Briggs, Madison county assistant superintendent of schools, who will discuss activities of the 76th General Assembly relating to school issues. A "coffee break" will follow his talk, with faculty members from the elementary and secondary levels then taking part in sectional meetings covering 18 areas of education.

After a noon luncheon, teachers will adjourn to their individual school buildings, where advisory sessions will take place from 1:15 to 3:30 p.m. Identification photographs will be taken during the afternoon hours.

have two more possible breaks. I recommend that this line be replaced immediately. If there was a heavy rain, we'd really be in trouble."

The engineer told the Press-Record yesterday that the money spent for repairs on the three breaks in the line to be replaced is "money down the drain" and said that "because of this, I think it is time we quit playing around and get the line replaced. We can spend money on repairs forever and still have more breaks."

He said the repaired break which was broken again is located right at the intersection of Stearns avenue. "That break was repaired perfectly and the best of materials were used," Kleberger said.

He said the second break at the same location undoubtedly was caused by shifting earth, saturated with water due to the high water table.

Another Line in Danger
Kleberger warned that another section of the same line extending to Spaulding avenue—a distance of about 1300 feet—shows a "strong possibility of giving us the same trouble."

He said it may become necessary soon to completely replace this line as well.

Warfield's blunt warning and his description of the sewer problems requiring complete replacement of the line apparently took most of the council members by surprise.

None of the aldermen ventured a question concerning possible cost, and none raised the question of where the money might be raised although they had only a few minutes before, voted down an ordinance to increase the tax rate of the sewer maintenance fund by eight cents per \$100 assessed valuation.

The city already has spent about \$250,000 on sewer break repairs in various parts of the old Nameoki sewerage system.

The city's current tax levy ordinance, still pending before the council, contains an item of \$266,000 for financing sewer break repairs.

In contrast to the fact that the city's present two-cent tax rate for sewer maintenance will raise only about \$35,000 on the basis of last year's assessed valuation.

Just before Warfield was granted permission to address the council concerning the sewer problem, council members approved a motion by Alderman Clyde Boyd, chairman of the street committee, that the street department be authorized to buy immediately a new six-inch pump and a new four-inch pump for use on the sewer operations.

Need New Repairs
Boyd sought the purchase authority on an emergency basis to eliminate the time required for bidding because, he said, one of the six-inch pumps on the sewer pumping job had burned out Monday afternoon.

Kleberger said yesterday that a survey crew is busy in the Cloverview area showing new sewer level shots that might permit raising the sewer depth as much as possible.

Sewers along the line to be replaced are from 13 to 17 feet underground, he pointed out, making them more vulnerable to underground water action.

He said he planned to survey the basement level of homes in the area and place the new line at as shallow a depth as possible.

Kleberger said borings for core samples in an effort to determine the depth of the water table in the area were to be made today or tomorrow. He said every effort will be made to complete specifications for a new line in time for Monday night's council session.

lege credit hours with five prior years of experience received \$869 monthly in 1968-69; under the offer by the school system, he or she would receive \$1044 monthly this fall and at least \$1144 a year from now, or \$118 if the cost-of-living rises 3%.

In addition, teachers who obtain additional college credits can get extra raises of about \$27 monthly.

Q. How long an agreement is proposed?
A. The teachers want a one-year pact; the district favors two years, saying the months devoted by administrators to the negotiations prevent them from giving full attention to operation of the schools. Also, board members have indicated they would reduce or withdraw their own participation in pay talks if it becomes an annual

task. The last agreement covered five years or ill. The cost of benefits beyond basic pay is approaching three-quarters of a million dollars yearly.

Q. Is pay the only issue in the dispute?
A. No, many other points remain to be settled. Accord has been indicated on 29 articles of the proposed working agreement; 15 others are at stages varying from minor to significant differences of opinion on the wording and provisions.

Issues not settled include consultation with teachers, building representative meeting procedures, pay for teaching during the sixth or non-teaching hour, pay of teachers of homebound pupils, emergency and personal leaves, partial-hour classroom substitution, acting principal pay, insurance, instructional improvement, cost-of-living pay, and summer school pay.

Q. Are the various working agreement articles important?
A. They outline the ways in which teachers can be utilized, have a direct bearing on edu-

cational efficiency and effectiveness, for good or ill. The cost of benefits beyond basic pay is approaching three-quarters of a million dollars yearly.

State, Local Tax Funds

Q. Don't the schools receive several million dollars in state aid yearly? Why is the amount of school expenditures here such a controversial matter?
A. It is correct that schools enjoy a greater return of tax funds from the state than any other local-level government body. However, the schools in addition spend about 60 cents of each dollar paid to the city treasurer in real estate and personal property taxes.

Q. With state aid increased sharply this year and a school tax rate election victorious here last December, why is there a financial squeeze?
A. The size of the staff—certificated personnel totaled 700 and are increasing to about 727 this fall—is a big factor, plus the extent of the raises. For teachers at the bottom and top

Granite City PRESS-RECORD
Thurs., Aug. 21, 1969 Page 11

of the pay schedule, the school district is offering raises of 16% and 18%; Teachers' Local 743 is seeking raises of 41% and 25% in the lowest and highest figures of the schedule.

The state aid formula is not increased every year by the state legislature; the only foreseeable gain a year from now would be from enrollment increase.

Each year the faculty is expanded, and in the next year two several new school buildings will be opened.

Special Services Expanding
The district also is increasing its counseling, special education and various consultant services in line with growing requirements of the state government and Northwestern Association of Colleges and Secondary Schools.

The schedule is increased annually; the district already has offered for 1970-71 salaries \$55 a month higher than what it has proposed for 1969-70. The same kind of increase can be foreseen in later years.

Q. Is the school district trying to give teachers a smaller proportion of its spending?
A. The district says it has shared at least as much of a share as in the past. The last request from Local 743 specified, in addition to major boosts in fringe benefits, "5600 (360 monthly) across-the-board applied to current salary schedule" plus "70.38% of any increase in state aid"—combination of the same share and another 56%.

Q. Could the teachers be given virtually whatever they ask, and the big increase in school spending be eased slightly by assigning more students to each teacher?
A. Future Innovations

A. This is one possible alternative. Increasing attention is being given to accomplishing this in various ways, including year-around school with staggered pupil vacations; variations in the length of the school year and day, the length of a class and the number of times it meets to boost teacher "productivity" while class size remains constant; auditorium-size classes by master teachers in some subjects; use of taped instruction, individual teaching machines and closed-circuit television supervised and supplemented by teachers; and many other possible innovations intended to make learning easier and more certain without destroying the valued teacher-student relationship.

Because the negotiations are resuming only a weekend away from the scheduled first week of school, no major procedural revisions seem likely for the current year.

The issue boils down to the questions of how much teachers are going to be paid, what their working conditions are to be, and whether an agreement can be achieved in time to permit pupils to begin their study on time.

The decision will be made by negotiating teams representing the teachers and the board-administration. But more than 15,000 students, their parents—and local taxpayers—also will be affected by what happens.

Auto Window Shot
Alice Alteman, 2226 Delmar avenue, reported at 7:35 a.m. Wednesday that someone had shot a hole through the left window of her 1962 auto, apparently with a pellet gun, while it was parked at her home during the night.

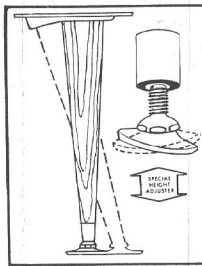

Hit-and-Run Accident
A hit-and-run auto struck the left front fender of the auto of Barbara Johnston, 6 Hanson drive, Arlington Heights, while it was parked in a driveway at the rear of 2038 Madison avenue between 1:30 and 3 p.m. Tuesday.

Weight Watcher's Potato Salad
Made From Washington State Potatoes

There's potato salad that is low in calories yet very tasty. This "Weight Watcher's Potato Salad" is your answer, seasoned with a tangy, cooked, butterflied dressing. Sounds unusual? It is, and an easy recipe besides! You may also like it because it may be served in both low fat and low-calorie diets. Be sure you choose Washington State Potatoes only in the fertile valleys of Washington where the soil is high in nutrients. Their texture and flavor is ideal, an essential for a good potato salad.

Potatoes have many health-giving nutrients and should not be eliminated from the diet as actually they are not high in calories. It's what you put on them—butter, sour cream, gravy, etc. So if you're calorie counting, this "Weight Watcher's Potato Salad" is for you!

WEIGHT WATCHER'S POTATO SALAD

DRESSING

- 2 tablespoons sugar
- 2 tablespoons cornstarch
- 1 teaspoon dry mustard
- 1 teaspoon salt
- 1/2 teaspoon ground pepper
- 1 cup water
- 1 tablespoon vinegar
- 2 tablespoons salad oil
- 1 cup buttermilk

SALAD

- 6 cups cooked, hot sliced Washington State Potatoes (5 or 6)
- 1 cup dressing
- 1 teaspoon salt
- 1/4 teaspoon freshly ground pepper
- 1 cup sliced celery
- 1/2 cup sliced green onions
- 1/4 cup chopped parsley

DRESSING: Blend sugar, cornstarch, mustard, salt, pepper, and water. Cook over medium heat until thickened, stirring constantly. Remove from heat. Stir in vinegar, then oil. Gradually beat in buttermilk until dressing is smooth and creamy. Use as directed. "Weight Watcher's Potato Salad" can be stored in refrigerator and used as needed. Makes one 8-oz. salad.

SALAD: Combine hot potatoes with dressing, salt, pepper. Toss gently. Add remaining ingredients, toss gently again. Chill and serve. Makes 8 to 10 servings.

Tomatoes Are Ready—Let's Can Them

Red, ripe, fresh tomatoes are ready for canning. If you have top-quality ones in your home garden, you'll want to make the most of them.

Use either the hot or the cold pack method for canning. The cold pack method usually gives better results than the hot pack, but you can take your choice. However, the open kettle method is not recommended. It presents far too many "spillage hazards."

Select tomatoes that are firm in texture and yet fully ripe. Be sure they are smooth-skinned and free of blemishes. Scald the fruit in boiling water for about thirty seconds, working with small amounts at one time. Dip them quickly into cold water, slip off the skins and remove the cores completely.

For the COLD PACK method, leave the tomatoes whole if possible. Pack them into the jars or cans, pressing gently to fill the space to within one-half inch of the top. Add no water. Add 1/2 teaspoon of salt to the pint jars and 1 teaspoon to quart jars.

Use the boiling water-bath method for processing and check the processing time in minutes for both pints and quarts. Since the processing time is so short, it is extremely important that you count it accurately and allow full time.

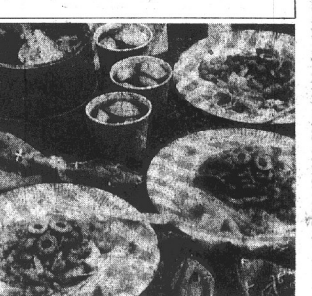

If you use the HOT PACK method, quarter the tomatoes making sure that every trace of core is removed. Heat them slowly to the boiling point, and then pack them immediately into jars, leaving 1/2 inch head space. Add 1/2 teaspoon of salt per pint and 1 teaspoon for each quart. Processing time is 10 minutes for both pints and quarts. Since the processing time is so short, it is extremely important that you count it accurately and allow full time.

Tip to Motorists
Reduce your speed on the highways, and you'll find that safety is no accident.

Beans Make The Picnic

Borrowing from cowboys' tin-horned grub, baked beans, you moms can rustle up tempting lunchtime treats for your rambunctious backyard cattle barons in no time. Beans are protein-packed and flavor-packed, meeting two big requirements for kids' lunch. Four kinds of canned beans offer this compend for continuous play. Choose from pinto & beans with tomato sauce, baked beans, and beans 'n' beef in tomato sauce.

Baked beans are a natural choice for lunch-on-the-range. The distinctive barbecue flavor blends well with southwest strips of bologna and pickle relish mix with the beans for a hearty sandwich fare. Spoon over toasted hamburger buns and top with sliced stuffed olives.

You'll want to fix a parcel of these delicious sandwiches to serve the whole round-up crew. They're great with easy-fix carrot sticks and celery sticks. A bucket of cold soda rounds out the picnic.

'Cause the menu's so easy-to-fix, why not make lunch a party on the lawn with inexpensive paper plates and cups to dress Aloysius meal and help keep cleanup easy for you.

CHUCK WAGON OPENWICHES

- 4 slices (4 ounces) bologna.
- 1 tablespoon butter or margarine.
- 1 can (15 ounces) barbecue beans.
- 1 tablespoon pickle relish.
- 1 hamburger bun, split and toasted.
- Sliced stuffed olives.

In saucepan, brown bologna in butter. Add beans and relish. Heat; stir now and then. Spoon on buns. Garnish with olives. Makes 4 open-face sandwiches.

\$20,000 Fire Loss at Land of Lincoln Motel

An early morning fire Tuesday caused an estimated \$20,000 damage to the Land of Lincoln Motel, on Chain of Rocks road and Route Three, Mitchell.

Mitchell volunteer firemen, summoned by the motel clerk at 3:50 a.m., extinguished the blaze and remained on the scene until 6:45 a.m.

Chief Lee Paul said the blaze began in Room 32, occupied by Ruth Earhart of Downey, Calif., who checked into the motel about 11 p.m. Monday, turned on a bedside lamp and left the room.

Miss Earhart said that when she returned at 3:45 a.m., the light was out and the room was filled with smoke. She ran to the office and informed the night clerk.

Paul said the blaze probably started in an electrical circuit or from a cigaret. Units on either side of the room were extensively damaged and the fire traveled along eaves of the building exterior, damaging about half the rooms and burning the roof of Room 32. The motel has 34 units.

Watson Mercer is the owner. Loss was estimated at \$17,000 to \$18,000 to the building, and \$2,000 to \$3,000 to contents and furnishings.

Harizal, Wilson Train At Leadership Workshop

By John Harizal Jr.
John Harizal Jr., son of Mr. and Mrs. John Harizal sr., 2509 Delmar avenue, and Mike Wilson, son of Mr. and Mrs. Walter Wilson, 2332 Clark avenue, represented Granite City high school at the 18th annual Leadership Training Workshop at Monticello College, Godfrey, last week.

The workshop was sponsored by the Illinois Association of Student Councils under the auspices of the Illinois High School Association.

The summer workshops brought together Student Council representatives from throughout the state.

During the five days on the Monticello campus, the students discussed problems common to their schools and developed solutions using improved leadership and group process techniques.

Explore Democracy
Through association with other students, mock council meetings, lectures and informal discussions, the delegates explored the application of democratic principles at the high school level.

Recreation consisted of guest speakers, swimming, tennis, volleyball, dancing, song festivals, basketball and junior Olympics.

This year, nearly 400 students participated in two workshops under the direction of Ronald Ganschietz, Student Council advisor at Venice high school.

The educational program for the first workshop was presented by James Donnell of Laramie, Wyo., and the consultant for the second week was Phil Simon of Dayton, O.

Student Body Officer
Upon entering the local high school this fall, Harizal will begin duties as first vice-president of the student body.

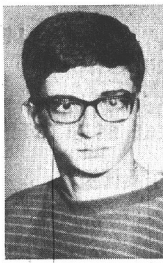

He is active in cross-country

and track, Latin Club (treasurer), speech, Student Council and the Roca Young Men's Club.

Wilson will accept the responsibilities of second vice-president of the student body as he enters his junior year this fall.

He is active in the Warrior sports of football, basketball and baseball and the organizations of Latin Club and Roca Young Men's Club.

The Student Council this year is under the sponsorship of James Jeffries, a member of the GCHS faculty.

Roca Club Sets Tennis Tourney

The Roca Young Men's Club will hold a tennis tournament at 6 p.m. Saturday at the high school courts.

Trophies will be awarded to the winners. The tournament had been scheduled for last Saturday but was rained out.

Club members plan to see "The Odd Couple" on Sunday at the Spanish pavilion in St. Louis.

Four club members, Harry Dick, Mike DeRuntz, Brad Cross and Dave Rouland, have been working in a variety show with the Masquers of Collinsville. The show is to be staged Sept. 7 at Collinsville. There will be no admission charge.

The club is welcoming back some of its members who were on a two-week tour of the West. On the trip were Earl Parsons, advisor; Mike Loftus, director; Dave Evans, acting president; Tim Moore, vice-president; Ralph Thompson, treasurer; Rick Cardwell, chairman of the board; and Frank Melville.

While they were away, the club carried on activities with Bruce Buttrely as president, Tom Rushing as vice-president, Mark Rigby as treasurer and Kirk Koser as secretary. The officers on leave resumed their duties at a club meeting last night.

Air Force to Hold Qualification Exams
The U.S. Air Force, seeking qualified young men and women for its programs, will hold qualification examinations at 9 a.m. Friday at the East St. Louis recruiting office.

The programs include airman, Women's Air Force, officer training school (men), officer training school (women), nurse and medical specialist (no exam) and prior service men and women (when required).

Full information may be obtained by contacting M/Sgt. Bill Keith at the recruiting office or phoning 724-1244.

LOCAL DEMOLAYS attending the organization's 41st annual state convocation at Western Illinois University included Dwayne Pritchett, left, appointed governor of district No. 4, and Keith Darnes, who placed second in a state DeMolay pool tournament.

Hileman Elected State DeMolay Jr. Councilor

Charles E. Hileman Jr. of Granite City was elected state junior councilor at the 41st annual Illinois DeMolay convocation last weekend at Western Illinois University, Macomb.

The son of Mr. and Mrs. Charles E. Hileman, 2336 Lynch avenue, Hileman is a past master councilor of the local James Stuart chapter, master councilor of the Southern Illinois DeMolay Association, a representative DeMolay and a Chevalier.

He attended the 50th anniversary conference in Kansas City and was a member of the European DeMolay pilgrimage in July.

Also honored at the convocation was Dwayne Pritchett of the local chapter who was appointed as governor for district No. 4 by Douglas Vaniltooser, state master councilor.

Pritchett is senior councilor of the local chapter and a representative DeMolay. He is the son of Mr. and Mrs. Theodore Pritchett, 2238 War 23rd street.

Athletic Competition
Athletic competition in golf, tennis, bowling and pool was conducted. Keith Darnes, past master councilor, placed second in the pool tournament.

Others competing were Tim Noud, pool; Bill Watson, tennis; Paul Boyer and Bill Witkamp, golf; and Jim Fitzpatrick, Steve Hileman, Max Merz and Bill Kee, bowling.

About 540 DeMolays, sweetheart contestants and their chaperones, advisors and guests were welcomed by J. Edwin Beck, acting dean of the university. He was presented a U.S. flag which had flown at the Capitol in Washington on Flag Day, 1969.

Aside from business sessions, the convocation included "think tank" sessions, a grand banquet, a swim party, a knight-hood degree, flower talk competitions, a barbecue, state sweetheart competition, a grand ball, a rock dance, a church service and a majority service. First runnerup in the sweetheart contest was Becky Thompson, sweetheart of the local chapter. She was accompanied

SIU May Inaugurate Two New Curriculums

Southern Illinois University at Carbondale will ask the State Board of Higher Education for permission to inaugurate curriculums leading to a specialist's certificate in school psychology and to a master of arts degree in linguistics.

Approval by the SIU board of trustees of recommendations submitted by the SIU graduate council and the dean of the graduate school paved the way for action by the state board.

Work leading to the specialist's certificate would be offered jointly by the department of guidance and educational psychology in the college of liberal arts and sciences, effective immediately.

It was pointed out that only about one-fifth of the personnel needed for psychological services for handicapped children is available in Southern Illinois, and the proposed program is designed to give necessary training to meet this need to persons already trained to the master's level in psychology or related fields.

The proposed master's program in linguistics would be offered by the department of English as an extension of the master of arts in English, which as a foreign language proficiency minor, Roger Miller, Dennis Rutenbush and David Schilde, advisors were Charles Meyer and Gilbert Watson.

by her mother.

The local delegation was the largest at the convocation, as 26 members and two advisors attended.

Other local DeMolays attending were Randy Fowler, master councilor, and Robert Carson, Kirk Darnes, Earl Fanning, Robert Hollenbeck, Dale Jones, Ronald Jones, William L. Jones, Thomas Layman, Steve Meador, Edward Meyer, Billy Mih, Roger Miller, Dennis Rutenbush and David Schilde, advisors were Charles Meyer and Gilbert Watson.

Conservation Taught Youths at Workshop

Every Sunday this summer a bunch of hot, thirsty, usually hungry high school teenagers arrives at a cluster of cabins on Little Grassy Lake near Carbondale to begin a week-long crash course in conservation.

The story is the same with each group, each week. By Sunday evening, their cabins and campground are dotted with soft drink cans, candy wrappers and the casual litter of outdoor America today.

But by Tuesday morning it's all gone and the site stays as clean as a wilderness meadow until the next contingent of students bunks in on Sunday.

This sudden behavior change may be the most encouraging "feedback" instructors are getting from the annual Southern Illinois University conservation workshop, one of five being conducted at Illinois universities this summer. Chief sponsor is the state office of public instruction.

"SIU's is at the University's Little Grassy Lake Outdoor Laboratory, where conservation, special education and recreation is taught and practiced throughout the year for the benefit of Illinois school children and handicapped youngsters.

The emphasis is on the interdependence of resources, the vital and precarious balance between the animal, vegetable and mineral components of the environment.

Each day's activity in field and classroom is followed by reminders—sometimes in ones—of the desolation and loss that can follow misuse of the environment and disregard of nature's scheme.

Two GC Students Named To Honorary Society

Mrs. Donna Jean Bohrnell, 3801 Galtway Walk, and Mary Lynn Jasse, 5281 Carlson Avenue, have been initiated into the Alpha chapter of Kappa Delta Pi, honor society in education at the University of Illinois.

The society encourages high professional, intellectual and personal standards and recognizes outstanding contributions to education.

Williamson Begins His Student Dean Duties

Ramon N. Williamson, former director of the Evening School at Norfolk State College, has assumed his post as dean of students at Southern Illinois University—Southwestern campus.

Prior to the positions at Norfolk State and SIU-SW, he was professor of music at Hampton Institute and taught in Blue Island, Ill., and New York City public school systems.

After attending Wheatley high school in Poplar Bluff, Mo., Prof. Williamson earned the bachelor of science degree in music from Lincoln University in 1951. He then earned graduate degrees in music education and secondary education from San Francisco State College and Columbia University in 1954 and 1959.

The doctoral degree in education was awarded at Columbia in 1963.

Commenting on his new position, Prof. Williamson said, "The area of student affairs at

RAMON N. WILLIAMSON

the university level is a new experience for me and a welcome challenge.

He added that "the administration should get someone with a broad range of educational and practical experience with students rather than a concentration in student affairs."

Negro Teacher Gains Insights at Carbondale

The opportunity of teaching in a mixed classroom is the most important experience James Galloway will take back with him to predominantly Negro Winston-Salem, (N.C.) State University.

"Many of our students will be facing the same thing one day and I feel I have gained insights that will enable me to help them," said Galloway, visiting professor at Southern Illinois University, Carbondale.

He exchanged institutions for the summer with James B. Murphy of the SIU history department as part of a broad cultural exchange program between the two schools.

Galloway, who this summer is teaching a general studies course in U.S. history and two advanced courses, "The Negro in America" and "History of the South," said students have told him he is the first black teacher they've ever had.

"I try to relate to them that I'm just a teacher—not a black teacher but just a teacher," he said. "I try to show I'm not exotic, not a freak, just a teacher trying to do the job."

The response of students has been good. "I'm quite heartened by this response," he said. "It gives evidence of their sincerity."

175 Guests of SIU at Archaeological 'Digs'

Southern Illinois University's Museum this month invited the public to visit one of its archaeological "digs" as a new feature of its educational program.

The public responded—more than 175, ranging from toddler size to 80 years of age—to the opportunity to tour the excavations at the Mary Coolidge site near New Athens, on the banks of the Kaskaskia River, where long-buried prehistoric Indian horseteads are soon to be reburied in a canalization project.

Three bus loads of visitors traveled from the Carbondale campus to the field crew's New Athens laboratory for a look at some of the salvaged materials, and then were joined by a dozen or more carloads of local residents to visit the river-bank site.

ART STUDENT Lorrie Eagles, 4625 Maryville Road, concentrates on her work at a week-long Allerton Federated Art School at the University of Illinois conference center near Monticello. The school is an annual project of the Illinois Federation of Women's Clubs, which furnishes scholarships, and the U. of I. Division of University Extension.

Educational Television At SIU Starts Sept. 15

More than 40,000 southern Illinois school children and 1000 teachers are expected to benefit from programming of the Southern Illinois Instructional Television Association's ninth year on the air which begins Sept. 15.

The nine-month season will feature 38 program series for kindergarten through grade eight, an increase of 15 programs over last year, according to Carl Planic, acting director of SIITA.

The Monday through Thursday programming again will be seen on WUSTV, channel 8, Carbondale, and Wust-tv channel 16, Olney.

The increase in the number of programs, Planic said, will be made possible by eliminating the customary five-minute break between shows and by lengthening the broadcast day by 45 minutes.

The programs will be on the air from 8:40 to 11:55 a.m. and from 1 to 3 p.m. The practice of repeating a number of shows at different times also will be curtailed. Seven of the programs will be seen in color, compared to two last season.

SIU Conference Link In Athletics, Research

The Southern Illinois University board of trustees has approved in principle a conference-type affiliation of the Carbondale Campus with four other midwestern universities.

Purpose of the conference would be advancement of mutual programs in research, academics, public service and intercollegiate athletics.

Final approval awaits inspection of a proposed charter for the new organization. The group's roster was not announced, pending similar action by the governing boards of the other schools.

Carbondale Campus Chancellor Robert MacVicar said joint programs in research and academic work would be as beneficial to the five schools as sports affiliation. "There are many advantages to SIU at Carbondale through affiliation with a group of comparable

Granite City PRESS-RECORD
Thurs., Aug. 21, 1969 Page 27

midwestern institutions," he said.

"It is obvious that our athletic program, especially football, will benefit from a conference membership." SIU has been an independent, since withdrawing from the Interstate Intercollegiate Athletic Conference in 1962.

"Of even more importance, however, are the benefits to be derived from mutual-support programs in all other areas of institutional concern. I'm sure the academic program at Carbondale will benefit from a student exchange system such as that practiced in the Big Ten Conference.

"In contract research and service, it is increasingly evident that strength can be enhanced materially by combining the resources of several institutions."

European Newspapers Meet Reporting Duties

European newspapers openly supported by the government or political parties are declining rapidly in importance and effect, according to Prof. John Rider, chairman of the mass communications faculty and director of broadcasting services at Southern Illinois University-Southwestern campus.

"People over the world have such new and tremendous amounts of information they don't buy" opinion that is obviously in conflict with fact," Rider comments.

The professor has just returned from a seminar on the future of mass communications, held at the University of Tampere in Finland.

"According to my Scandinavian colleagues," Rider said, "they have a duty to resist indoctrination and attempts to structure the reporting of news. Consensus of the 40 journalists at the conference was that broadcast journalism gained much in popularity in the past six or seven years because in some countries it was relatively freer in reporting."

In Europe during the Apollo 11 mission, Prof. Rider says he found it increasingly apparent that the press of the world revolves around activities of the U. S.

"For example," he explained, "every paper in Europe carried front page stories on Apollo 11. This leads me to believe that American technology and commitment is attractive to the whole world and that, in this sense, we are the new world."

Blue Smoke Persian Cat Wins National Mention

Word was received this week that "Cats Magazine," a national publication subscribed to by cat breeders, owners and feline fanciers in the U.S. and abroad, has awarded a certificate of merit to "Beauty of Willow Walk," a Persian female owned by Mrs. Jenny Pulliam of the Willow Walk Cattery, Mitchell.

The animal, a double champion, was named "Best Blue Smoke Persian Female" in the midwestern states during the 1968-69 show season in an annual poll conducted by the magazine to select the best of each breed in the country. Awards are initially granted on a sectional basis.

"Beauty" received the honorable mention award from among all-sectional entries listed in the publication's August issue. One of Beauty's offspring, an old-eye white Persian female, currently is being groomed for entry in the 1969-70 show season, according to Mrs. David H. Taylor, owner of the local cattery.

GC Council Declines to Oppose Bond Tax

The Granite City council rejected by a 10 to 6 roll call vote Monday night a proposal that it go on record opposing government tax reforms that would include a tax on municipal bonds.

The issue came in for considerable debate after Alderman Gerald Parmley introduced a resolution condemning any Congressional action changing the tax status of municipal bonds and said copies of the resolution would be directed to Cong. Melvin Price and Illinois Senators Everett M. Dirksen and Charles Percy.

Parmley, chairman of the council's Ordinance Committee, told council members it was his belief that a tax on municipal bonds would make the bonds even more difficult to sell than they now are.

Principal opponent of the resolution was Alderman Walter Nomm, who told the council that he felt holders of municipal bonds should pay taxes on them.

Big Investors "The people who buy these bonds are the big investors, not the little fellow," Nomm said. "They buy in lots of hundreds of thousands and a half million. There's no reason why they shouldn't pay taxes."

"It's no different than if I go to a building and loan company and get a mortgage. I have to pay interest on it."

Alderman Charles Moerlein pointed out that any change in the status of municipal bonds would consist of a minimum amount of exemption, with a tax to pay only on amounts of bonds held over the established minimum.

Moerlein favored adoption of the resolution and said he felt the legislators should be informed of the city's attitude.

Alderman Steve Basarich remarked: "I don't see where this bothers us, anyway. We couldn't issue a bond if we wanted to. Neither could any other tax agency in Granite City. We're just butting our head against a wall."

Bonds Would Cost More "It does affect us," Parmley responded. "If bondholders are made to pay a tax it means that bonds are going to cost more in the long run, and it's the taxpayer who pays off the bonds and interest."

Parmley moved for a suspension of the rules to place the resolution on final passage, but the motion was defeated on a roll call vote. Those opposing it were Nomm, Rutledge, Bas-

rich, Boyd, Dallas, Robertson, Green, Jarrett and Moerlein.

Council members on Monday night's session approved without discussion Mayor Donald Partney's appointment of 16 persons to serve as school crossing guards during the new school term.

Partney, who is on vacation and did not attend the council session, notified the council of his appointments by letter and requested the council's confirmation.

Named as crossing guards for the 1969-70 school year were Emmett Beeler, Jessie Burnett, Henry Clemens, Ernest Dodd, George Gallas sr., Clarence Ficker, William H. Jones, Fred Meng, Mrs. Virginia O'Beir, Mrs. Bob Graham, Otto Shelton, Gilbert Stegelmeyer, Frank Wilson, Fred Breyer, Charles Adams and Bert May.

The council received a report from the Illinois State Department of Revenue notifying the city that sales tax allotment to Granite City for May amounted to \$43,470.

Pay Damage Claim

The council voted to pay a \$238 claim to Garland Richardson, 2308 Pine street, for damages to his yard resulting from repair to the Lynch avenue sewer line. Richardson submitted an itemized bill listing cost of replacement of sod, shrubs, patio blocks and other items.

Aldermen also gave their approval to an application by Southwestern Bell Telephone Co. for an excavation permit to replace a phone cable in the street at the rear of 2725 to 2741 Harvey place.

The excavation is to involve 140 feet of trenching and is to be done in October. The request was approved, with the work to be supervised by the street superintendent.

A request by the General Baptist United Church, 2033 Johnson road, for permission to use the south side of the 2000 block of Johnson road for parking during the organization's annual crusade was referred to Chief of Police Ron Velzer, who is to report back to the council in its next meeting Monday night.

The crusade is to be conducted nightly from Sept. 2 to Sept. 21. Carl Caldwell, who filed the request, said parking will be supervised by the organization's transportation committee.

Reject Contract Renewal

A move to renew a contract with Jack D. Huggins, certified public accountant, for preparing the city audit for the 1969-70 year failed when a roll call vote ended in an 8 to 6 tie. Since Alderman R. E. Robertson, serving as mayor pro tem, had already voted, no deciding vote was available and the motion was declared lost.

A motion to renew the contract was made by Alderman Nomm after the council approved a bill for \$298 for completion of the 1968-69 audit. The bill was accompanied by a letter from the firm offering renewal under the same terms as last year's agreement.

Nomm said he believed the offer should be accepted now, since the cost might rise if the city waited until next year. Moerlein, however, said he believed the matter should be referred to the Finance Committee.

After Nomm's motion ended in the tie vote, Moerlein moved that the contract matter be referred to the Finance Committee, of which Moerlein is chairman. This motion carried on a voice vote.

Less Sugar in Diet May Plan for County Reduce Heart Attack Risk Funds to Earn Interest Ready

Merely lowering the amount of simple sugar (glucose) in the diet may help some people bring about sharp drops in elevated blood levels of cholesterol and other fatty substances known to increase the risk of heart attacks.

This observation was drawn from a study reported at the 41st annual Scientific Sessions of the American Heart Association by Dr. Manuel Tzagournis, spokesman for a research team from Ohio State University Hospital in Columbus.

The findings lend support to the view that elevated levels of the hormone insulin may play a role in rising coronary susceptibility through its direct influence on blood fat levels. Released by the pancreas, insulin helps the body handle sugar.

The investigators administered a drug (phenformin), known to decrease blood sugar and insulin levels, to 30 patients who had heart attacks or were known to have coronary disease.

Insulin Levels Drop After treatment, insulin levels fell sharply. This decrease was accompanied by a drop in levels of cholesterol and triglycerides ("neutral fats"). These levels continued to diminish for the next 12 months.

Glucose tolerance—the ability of the patients to handle sugar—also improved. That is, challenged by a dose of sugar, they were able to clear it from their bloodstream more effectively than prior to treatment.

The 30 patients on the drug were selected from a group of 80 heart patients (aged 25-49). Compared to 30 normal or control subjects, these patients had higher levels of cholesterol (30 vs. 222 milligrams per 100 cc's

of blood) and triglycerides (178 vs. 71). Following a glucose tolerance test, the patients also had significantly higher blood levels of sugar and insulin.

Ninety per cent of the patients, in fact, had one or more abnormalities in their sugar, insulin or fat metabolism as compared to only 20 per cent of the controls. Dr. Tzagournis and his associates also noted that the patients with the highest triglyceride levels tended to have the highest insulin levels.

After two months of drug treatment insulin secretion dropped almost in half. And after 12 months, triglyceride levels went from 319 to 278. In seeking the mechanism for this insulin-fat relationship, Dr. Tzagournis explained that insulin helps the body to burn sugar for energy and to store the excess sugar as either glycogen or fat.

GO TO CHURCH ON SUNDAY

"In addition, there was some question by me and other persons involved that the bank plan is precisely what we want. For that further reason, I decided to hold the matter over at least until September.

Volunteer Banker Group "The day before the County Board meeting on Aug. 13, I sent the Finance Committee an investment plan prepared by a volunteer committee of bankers in conjunction with County Auditor Kraynak and Richard Scheffel of the R. C. Scheffel & Co. Alton certified public accountant firm.

"These monies have not been invested in the past due to the inability of the county treasurer

to obtain a firm legal opinion as to the validity.

"The plan submitted meets the approval of the office of the state's attorney.

"Past confusion has required two opinions by the Illinois attorney general on who deposits the money.

"The law says that deposits shall be as designated by the County Board; a different chapter and section says this is done when requested by the county treasurer. Attorney generals have sided with the county treasurer, since he is responsible for safe-keeping of funds.

More Recent Investment Law A more recent statute authorizes the investing of all the county funds in different banks, provided that they post securities with the county treasurer to safeguard him in an amount equal to 125% of the amount deposited or invested with them. These would be U. S. government securities and would completely safeguard the county treasurer from any liability.

"We owe County Treasurer Maeras our sincere thanks for being the first treasurer in this county to inaugurate such a program.

"Based on the opinions of Kraynak, Scheffel and the com-

mittee of bankers, there are sufficient funds—presently not invested—which can result in a net income to the county of at least \$200,000 or more annually.

"Each month's delay costs the county almost \$30,000." It is proposed to offer 45% of the available funds equally to all banks with assets of over \$20 million and 35% equally to banks of under \$20 million. The 90-day time deposits would earn 5% annual interest, payable quarterly.

If any bank declines to accept deposits under the 125% plan, its share would be divided between accepting banks in the same group.

Smith said there are 21 Madison county banks—eight in the larger assets category, with a combined total of \$245 million, and 13 smaller banks totaling \$100 million in assets.

New 50 Year Madison Power Franchise; Bright Whiteway

The Madison city council granted Illinois Power Co. a new 50-year franchise to provide electricity within the city and adopted two other electrical ordinances during a meeting Tuesday night.

The franchise agreement is identical to the old one which still had nearly 30 years to run. It was granted in 1948, but the utility requested the new agreement for administrative purposes.

Mayor Stephen Maeras said all of the IPC franchises have 30 or more years to run.

New 10-year contracts were approved in which IPC will provide and service street and alley lights and will furnish all electricity for all city purposes, including buildings, street lights, pumping station, ball diamonds and other purposes, with rates to be in accordance with the utility's rate schedule. The old contracts expired Oct. 27, 1968.

Crash in Madison

Damage to the left front door of an auto driven by Mrs. Sharon Braddock, 723 Lee avenue, to a car driven by John E. Madison, and negligible damage to a car driven by John E. Bunk, 2123 Hildebrand street, Madison, resulted from a crash at Seventh street and Washington avenue, Madison, Monday. The Bunk car, northbound on Washington, stopped at Seventh and the Braddock car was headed west on Seventh and made a left turn.

Four Charges Filed

John Nishke Jr., 22, of St. Louis, and Dennis Lee Kelly, 22, of 2912 Buxton avenue, were arrested at 8 a.m. Wednesday at Leonard and Myrtle avenues, Nishke for driving while under the influence of liquor or drugs, and Kelly for failing to transfer the title of his auto, failing to obtain new registration and an improper use of registration.

The franchise is similar to the old franchises, except that the utility has agreed to paint light standards and install 50,000-lumen lamps along Madison avenue.

Mayor Maeras said the new franchise will make Madison avenue three times brighter than it is now.

The contract on electricity for the city provides a 50% discount from normal rates, plus an additional 10% discount on power for street lights.

The city will continue to receive two street or alley lights for the cost of one.

A request by Illinois Power Co. to replace gas mains in the Greenwood street area with four-inch high pressure lines was referred to the city engineer for a recommendation.

The utility said there have been leaks and freezeups in the area in the last two years.

50th ANNIVERSARY OPEN HOUSE HONORS KINSEY

Mr. and Mrs. William L. Kinsey, 1723 Courtenay Blvd., were guests of honor at an open house given by their daughter and son-in-law, Mr. and Mrs. Thomas Ledbetter, Carpenters' Hall, at the Kinsey home, Sunday afternoon.

The Kinseys were married in Kentucky, Aug. 17, 1919. They moved to Granite City in 1955 from Kentucky.

Mr. Kinsey retired from the Bi-State Transit System in 1963. A large bouquet of yellow roses decorated the living room, sent by Mrs. Annie Moll, his sister, who lives in Michigan and was unable to attend.

Many gifts were received, and the couple also received phone calls, cards and letters from friends and relatives.

Out-of-town guests included Mr. and Mrs. Troy Barnfield and son, Marty, of Kinder, Mo., who has been neighbors of the Kinseys, and Mr. and Mrs. George Ledbetter of St. Louis.

The new lines would be placed in the streets. The firm had proposed placing them between the sidewalks and curbs, but the mayor felt they would endanger city-owned trees.

Bridge Being Repaired

Mayor Maeras reported that a 2x2-foot hole has developed in concrete on the second Illinois span of the old Chain of Rocks Bridge. The Robinson Steel Construction Co. of St. Louis is making repairs at a cost of about \$700.

City officials made plans to attend a special meeting called by the Red Cross for 4 p.m. today at American Steel Foundries to coordinate and improve emergency communication and services in the event of a disaster.

The mayor, police chief, fire chief, superintendent of streets, civil defense director and former CD director are to attend.

Condemn Structures

Three condemnation notices have been issued by the building inspection department on Chicago.

structures described as dilapidated and needing to be demolished.

They are for a shed owned by Christ Mitalovich, 614 Washington avenue; a dwelling at 827 Greenwood street, owned by the Bloodworth agency; and a dwelling at 1390 State street, owned by George Mathis, 821 Iowa street.

Rain storm damage to the city of Madison in July was estimated at \$200,000 to repair a break in an 84-inch storm water sewer and \$2500 for removal of debris and pumping of basements.

The information was compiled at the request of William L. Eisle, mutual aid area coordinator for civil defense, in order to apply for federal disaster aid.

The council approved a request for an alley light to be installed at the rear of 1815 Second street.

Plans were made to attend the Illinois Municipal League convention Sept. 6, 7, 8 and 9 at Chicago.

GC Council Sets New Vacation, Pay Limits

Ordinances specifying vacation periods for employees of various city departments and establishing new salary schedules for four city employees were adopted by the Granite City council Monday night.

Alderman Gerald Farmley, who introduced the bills, told council members the provisions of both measures were in accordance with recently negotiated contracts with city police, firemen and other employees.

One ordinance provides that all members of the stiffer department shall receive a vacation of ten days working time after one year of employment, 20 days working time after ten years of employment and 27½ working days vacation time after 15 years employment.

It provides two weeks vacation after one year of employment for members of the police department and fire department, city hall employees and sewage treatment plant employees. They will receive three weeks vacation after five years' employment and four weeks vacation after 15 years employment.

The ordinance provides that vacations may be taken during the calendar year subject to the approval of the employee's supervisor.

The second ordinance set new pay rates of \$745 per month for Fire Capt. Raymond Romine Jr., \$715 for fire department engineer William Patterson, \$650 for Fireman Jerry Wallace and \$680 for William Curtis of the police department.

4 Unique Trophies Planned For United Fun Fair Awards

"Selfie Sr." and "Selfie Jr." along with "Booth Noedog" and "Noedogtoo," will be gaining fame in the next few weeks to promote the United Fun Fair on Sept. 27-28 at the Wilson Park rink-pavilion.

In a play on words for the self-help United Fun Fair, the trophies to be awarded for the best booth ideas by the agencies will be two elf dolls—Selfie Sr. for first place and Selfie Jr., a smaller doll, for second place.

Howard Kaseberg, ringmaster for the United Fun Fair, reports that the significance of the names for the prize winning booths in the non-agency category is in the wording "they're not dogs."

In line with that is "a statuette of a 'thinking man' without a dog—Booth Noedog." The second place award is a miniature antique auto—Noedogtoo. All of the trophies—donated by an anonymous giver—will be displayed throughout the Quad-Cities prior to the opening of the United Fun Fair.

Replaces Kickoff Dinner
The fair is being staged instead of the usual kickoff dinner, which is to begin officially on Oct. 1.

Corky the Clown will visit the fair from 2 to 4 p.m. on Sept. 27 to greet his local admirers. "It's all for fun and entertainment, and we'll have carnival rides arranged by Park Supt. Harold Brown, who said he will have a ferris wheel, twirl-a-whirl, two other major rides and two kiddie rides," Kaseberg said.

"There also will be lots of souvenirs donated by local businessmen and individuals that

will be given to everyone who visits the fair," Kaseberg added.

Additional booths signed up by Norman Hall, who is in charge of that phase of the fair, include "The Universe" made by youngsters of the Granite City Association for Retarded. Persons who are good at stargazing and planet identification can win a small bag of "moon dust," also made up by the youngsters.

Nearly 50 Booths Taken
Hall said nearly 50 booths al-

ready have been taken, and the number should jump to 70 before the Sept. 12 application deadline.

"The organization, Church Women United, will have a book fair to sell donated books, and the Kirkpatrick Homes Improvement Association will sell creamers and pitchers made at Menard penitentiary," he related.

"The Visiting Nurses Association, a United Fund agency, will set up a first-aid booth," Hall said.

By Press-Record Staff Photographer

"Everything is being arranged for fun and to show Quad-City agencies just what United Fund agencies do and accomplish. The fair also will give everyone a chance to meet personally the members of the agency staffs," he added.

Tickets for the fair—50 cents each—now are available from the agencies' staff members.

A dance and a variety of entertainment to benefit the Cystic Fibrosis Research Foundation will be presented from 2 to 10 p.m. Sunday at the Wilson Park rink pavilion.

Featured will be "Cinnamon & Sugar," Jerry Lewis and the J. J.'s, J. J. and the Cheshires, Dottie DeWitt, Miss Granite City, and Dallas Maxwell, St. Louis Cardinal shortstop who is the county honorary chairman of the Cystic Fibrosis fund campaign.

For the past three years she served as chief coordinator of talent at the Illinois fair. She writes a variety of song material—ballads, love songs, sacred and novelty music. Two of her songs currently are being considered by Eddy Arnold.

Disaster Preparedness Plan Under Study Today

Assurance that immediate and complete assistance is available to all Quad-Cityans in the event of a major disaster through coordinated action of disaster preparedness services is the objective of a group of area business and civic leaders and agency heads meeting this afternoon in the American Steel Company's main office conference room.

Questions involving the most efficient communication systems between local hospital, police and fire departments, and whether appropriate agencies can feed, house and clothe large groups on short notice are being discussed by representatives of organizations concerned with the health, welfare and protection of area residents.

Today's session was called by Jack Absalom, disaster chairman for the Tri-City Red Cross chapter, who said efforts will be made to develop a coordinated program to "best utilize people, equipment, facilities and know-how" to cope with major disasters, such as a wide-ranging tornado, flood or windblown fire.

Some Classes Switched To Community College

The new East St. Louis Community College will assume responsibility for freshman and sophomore classes previously scheduled at the East St. Louis center of Southern Illinois University officials said today.

Students who have already registered for fall classes at the freshman and sophomore levels at the East St. Louis Center are being contacted and asked to change their registrations to the main SIU-SW campus or to re-register with the State Community College.

The SIU-SW center in East St. Louis will continue to operate and will include the Center for the Performing Arts, the Katherine Dunham Museum, the Experiment in Higher Education and Manpower Development and Training Act programs, James M. Brown, executive dean of academic affairs, said.

11. Sweaters and blouses should not be closely fitted, low cut, or of a sheer material. Blouses should be buttoned at the top button or one button below the

Council Told of Public Spending Survey Program

Granite City officials were asked Monday night to lend their "full cooperation" to the newly-formed Tri-Cities Public Expenditures Survey in a program designed to ensure maximum return on the tax dollar and to halt rising costs in city operations.

The plea was made during the regular city council session by Randall Robertson, Granite City attorney and general counsel for the Public Expenditures Survey, formation of which was announced two weeks ago by a group of industrial representatives.

Robertson told council members that it was the organization's hope that it could maintain a continuing liaison with the council, probably through its Finance Committee, so that the public may be kept aware of government costs, its revenues and other factors pertaining to the tax problem.

"It is the purpose of the Survey Committee to appear before the taxing bodies of Granite City, Venice and Nameoki townships to discuss their budgets and their tax programs with a view toward representing all the taxpayers in suggesting possible ways of holding down costs," Robertson said.

"A Real Problem" "It is not our purpose to be critical of this municipality or any other taxing agency," he added, noting that "we do want to point out that there is a real problem."

During the past five years, Robertson said, the tax cost of government operation in the Quad-City area has risen 32%,

while over the same period the population growth has been only about 12%. Tax increases in recent years exceed by far the increases in salaries and cost of living, he noted.

In the early stages of organization, the survey group discussed the possibility of filing tax objections against some tax agency rates.

"But," he explained, "we felt that this would be taking the tax agency officials unaware of our full intent. In the long run, it would have resulted in tying up tax monies in escrow."

We realized, too, that industry is better able to finance the legal procedure necessary to such objections. If objections had been filed and upheld, the ruling would benefit only those who had filed objections and would not benefit the public generally."

Robertson remarked, however, that "I won't say, and I cannot take it upon myself to tell you, that tax objections will not be filed in the future." Robertson addressed the council while his father, R. E. Robertson, was sitting as mayor pro-tem of Monday night's council session in the absence of Mayor Donald Partney, who is on vacation.

The appearance before the city council was the second presentation of the Expenditures Survey program by Robertson, who also has spoken on the organization's plans before the Granite City school board. Eventually, the program is to be explained to all area taxing bodies.

In announcing organization of the survey group, it was pointed out that the industrial taxpayers who initiated the program are not seeking to lower the quality of services rendered by public agencies.

"We certainly are interested in preventing waste and unnecessary costs in view of the tremendous tax burden already carried by property owners in the Tri-Cities," Robertson said at that time.

Following Robertson's discussion, Alderman Charles Moer-

BRIDAL SHOWER FOR MISS BEVERLY RITCHIE

Miss Beverly Ritchie, 1810 August street, was honored with a miscellaneous bridal shower and party Sunday at the Holy Angels Catholic School in East St. Louis, given by her future mother-in-law, Mrs. Anna Kmiecik, and her mother, Mrs. Dorothy Ritchie, who were assisted by Mrs. Sylvia Zabawa and a prospective bridesmaid, Mrs. Pat Snyder.

The school basement was decorated in white, which the bride-elect has selected as wedding colors. The head table held four dolls, symbolic of the bride and three attendants, dressed as they will appear in the wedding parade. Suspended over the figurine arrangement was a decorated sprinkling can.

Miss Ritchie was assisted at the gift table by her three prospective bridesmaids, a sister, Mrs. Carol McKinney, and Mrs. Snyder and Mrs. Phyllis Bellman. They presented the honoree with a large bouquet created from the many colorful ribbons. The prospective groom, John Kmiecik, gave her a corsage as she entered the hall.

Preceding the gifts, games were played and prizes were awarded to the winners. The hostesses served a buffet luncheon to approximately 100 friends and relatives.

The bride-to-be, a daughter of former Granite City residents, Mr. and Mrs. Charles Ritchie of Salem, Mo., will wed Mr. Kmiecik of East St. Louis Sept. 13 at Sacred Heart Church, with Fr. Sullivan officiating at the double ring ceremony.

FORMER RESIDENTS HERE

Mr. and Mrs. Curtis Hood, Arcadia, Mo., formerly of Granite City, arrived here to visit friends and relatives for several days and stayed in the home of Mrs. Hood's sister and brother-in-law, Mr. and Mrs. Roger Martin, 2027 Iowa street. While here, they were entertained for dinner in the home of Mr. and Mrs. L. Hill, 4831 Warnock avenue. They left for Missouri Tuesday morning. Hood is a retired employee of the Union Electric Co.

They have one son, Robert Hood, who is presently living with his family at Mt. Olive, Ill., while employed at Scott Air Force Base.

HOME FROM VACATION

Mrs. Rita Gray, 2808 Jorden avenue and children, Beverly and Tony, returned home Monday after spending a ten day vacation trip in Missouri visiting Mrs. Gray's parents, Mr. and Mrs. Patrick Carson and John Carson of Brimley and Mr. and Mrs. Frank Smoot and children of Iberia, all former Quad City residents.

They were accompanied by a friend and classmate of Beverly, Miss Margie Settlemore. They toured Bagnell Dam and Jesse James Territory and were taken on several sightseeing trips in surrounding communities. They enjoyed outdoor sports activities, including water skiing, swimming and horseback riding.

A nephew, Joe Smoot, returned with them to visit local relatives for a few weeks.

BIRTHDAY DINNER

Mr. and Mrs. Ronald Eaton sr., 2409 East 25th street, entertained friends and relatives at a birthday party in honor of Mrs. Eaton's mother, Mrs. Ruth Dick of St. Louis county, in their home Sunday.

The hostess served a buffet luncheon from a table decorated in the anniversary theme and centered with a large cake decorated in white and pink, accented with a floral design. The honored guest received many gifts and a birthday greeting by telephone from a granddaughter and her family, Sgt. and Mrs. John (Pam) Johnson and daughter, Kimberlee, of Fort Leonard Wood, Mo.

Guests were a son, Richard Smith, also of St. Louis, Mr. and Mrs. Jack Dale and daughter, Pam, and the hosts' children, Ronnie Eaton Jr. and Ruth, Deborah and Mike Bird.

MRS. SANDERS HOSTESS
Mrs. Dolores Sanders, 2024 East 28th street, hosted a monthly meeting of the Koffee Klatchers Social club in her rathskeller Tuesday morning and the group wished "happy birthday" to Mrs. Helen Santagato and the hostess, who observed their birthdays earlier this month.

Mrs. Joan Yetter gave a lecture concerning entomology and common household "pests," and Mrs. Santagato commented on various stages of the insects and how many of these, although harmful in some aspects, provide a service to the field of medicine.

The remainder of the afternoon was spent playing "Liverpool" with everyone receiving a prize. A luncheon was served from a table with a white cloth. A large garden salad bowl completed the table appointments.

Members present were Mrs. Carmen Grider and daughter, Julie, Mrs. Margaret Breyer and daughter, Mary Ellen, Mrs. Mary Rita Ahlers, Mrs. Pat Eaton, Mrs. Helen Bertacchi, Mrs. Doris Stotz and those named.

BACK-TO-SCHOOL OUTING

A "back-to-school" picnic and outing was held at Wilson Park Tuesday afternoon by Mrs. Lorraine Gilmore and children, Patti and Debbie, Mrs. Jo Ann Jarrett and daughters, Ann Marie, Patti and Vicki, Mrs. Mary Fryntko and children, Michael and Magdalene, and Mrs. Doris Stotz and children, Kelly and Phyllis.

Following a wicker roast and lunch, the ladies, who are associated with the River Bluffs Girl Scout Council, Neighborhood Three, District Four, discussed district scout leaders' participation in the coming United Fun Fair to be held at the Park Sept. 27-28.

The Girl Scout organization will operate a booth featuring in-

formation, with action pictures and a game of skill.

Mrs. Virginia Mariette, 2300 Clinton drive, board member of the council, is chairman for the fair, with a representative from each school in the district to assist her. Mrs. Doris Votaw, 2705 Angela drive, is the District Four chairman.

MRS. COPPEDGE ENTERTAINS CLUB
Mrs. Cora Coppedge, 3004 Willow avenue, served as hostess for the Tuesday Evening Card club in her home this week.

The group played Liverpool rummy and high score prizes were awarded to Mrs. Joyce Bugg and Mrs. Sharon Shaffer. Consolation prizes were won by Mrs. Marlene Johnson and Mrs. Helen Schwendemann.
